

MOWBLOWER®

The mower with a blower for rough terrain

Here: **MOWBLOWER®** mounted to remote-controlled mower

MOWBLOWER® is suitable for all inaccessible grassland areas and vegetal overgrowth, e.g. between field and meadow. Especially in ditches or back slopes, Mowblower demonstrates its strength.

MOWBLOWER® Application areas

- Inaccessible grassland areas
- Back slopes
- Roadside ditches
- Areas of vegetal overgrowth
- Paths and unploughed strips along fields
- Brooksidess and banks

MOWBLOWER® Key facts

- Individual mounting to common devices
- Cutting diameter: 135 cm
- Net weight: approx. 350 kg
- Ideally for slopes and embankments
- Mounting to remote-controlled mowing machines
